

November 2021 Tech Tuesday Podcast

Transcript

Hello and welcome to November 2021 Tech Tuesday. My name is Karen Ballengee and I am the Assistant Instructional Technology Specialist at VALRC. I created this podcast using a free tool called Anchor.

Anchor allows users to create, edit, and distribute podcasts. Anchor is available for desktop and can be downloaded from Google Play and the Apple app store.

Podcasts are great resources for the classroom. Teachers can create podcasts for learners to guide them through assignments or explain challenging concepts. Or, learners can demonstrate their knowledge of a topic by creating their own podcasts. Podcasts can be used in the classroom for collaborative conversations, digital storytelling, interviews, and debates. Anchor provides a platform to help you with this process.

Visit our website to learn about Anchor and other tech tools for your classroom.
